I am very excited that we were able to send four of our regional partners to Anniston, Alabama from August 1-5 to participate in the L287 Voluntary Agency Liaison Functions and Methods course. Besides the heat, it should be a really great course!

We have another FEMA Region 10 ESF 6 Partners *First Thursday* Webinar on August 4, 2016 from 12:00 - 1:15 (PST) and the topic will be on ***Planning for the Homeless in a Disaster***. Attached is the flyer with more information on how to participate. There will be another *First Thursday* Webinar on September 7, 2016 from 12:00 - 1:15 (PST) and that topic will be on ***Donated Resources in relation to Public Assistance and Hazard Mitigation***. More information to come as that is solidified.

Here is another training opportunity held at EMI in Emmitsburg, Maryland on September 26–29 and again October 17–20, 2016.

Course is ***E0210 Recovery from Disaster: A Local Community Role***

<http://training.fema.gov/EMI/> Attachment has all the particulars if you are interesting in attending. Target audience includes voluntary agency coordinators.

Course Description: This 4-day course covers foundational concepts in disaster recovery and the latest guidance on recovery planning. Participants will either assess their own recovery plan or a sample against this national planning guidance. Following that, participants will discuss how a disaster recovery effort can be organized, managed, and led along with the types of challenges faced by recovery managers. Scenario activities throughout the course give participants the opportunity to target information strategies,

address local capabilities and challenges, and analyze experiences from Joplin, Missouri. The capstone activity is meant to apply all of the knowledge acquired in the course, through further examination of all of the elements of a pre-disaster recovery planning document in the context of a realistic recovery scenario.

About the Center for Disaster Philanthropy

Disaster philanthropy has become an all-too-necessary practice in recent years. Yet donors still are challenged to determine how, when, and to whom to give to have the greatest impact. The Center for Disaster Philanthropy helps individual, family, corporate, and institutional donors answer the question, "How can I help?" more easily and quickly in the wake of a disaster. We provide a platform of learning and connection with leading disaster experts and other disaster philanthropists that brings more private money to disaster response efforts.
